Description

This sterling silver brooch features a riding boot paired with a crop, combining two traditional equestrian elements within a compact and balanced composition. The design presents the forms with clarity, focusing on proportion and structure to create a distinct and recognisable silhouette.

Amethyst is set within the boot, while crystals accent the surrounding surfaces, introducing variation in tone and light.

Handcrafted using traditional silversmiths techniques, this piece demonstrates careful attention to shaping, stone setting and surface finishing. The gemstones are precisely set to ensure durability and a consistent, polished surface that enhances the clarity of the design.
