

Sterling Silver Champagne Bottle Swizzle Stick With Retractable
Stirrer

£321

REF: AN-GT1057

Height: 6 cm (2.4")

Description

This solid silver swizzle stick is designed for stirring drinks with precision and ease, combining a practical function with a distinctive form. Shaped as a miniature champagne bottle, it conceals a retractable stirrer within, offering a compact and considered solution for use in glassware.

When extended, the internal stirrer reveals fine tines suited to gently mixing cocktails and beverages. The design balances novelty with restraint, drawing on classic barware traditions while introducing a subtle mechanical element.

This sterling silver handcrafted using traditional silversmithing techniques, the outer form is carefully shaped and assembled, with the retractable mechanism engineered for smooth operation. Each piece is hand finished and polished to achieve a refined and durable surface.

Supplied in a presentation gift box
